

Ordinary Meeting

2 December 2008

Erratum to Item 18

ITEM NO: ITEM 18 - ERRATUM

SUBJECT: Development application for the sealing of three (3) netball courts and associated works at LOT 7009 DP 1055673, LAPSTONE RESERVE, 2-4 Explorers Road Lapstone

FILE NO: X/701/2008

Report by Acting Group Manager, Environmental and Customer Services:

- 1) Page 166 of the Business Paper incorrectly states that the Blue Mountains Netball Association has received grant funding from the State Government. The correct funding source is a grant provided by the Federal Government's Department of Health and Aging to the Blue Mountains Netball Association.

This error does not change the recommendations contained within the Business Paper.

- 2) Page 173 of the Business Paper refers to Action 3.2B of the Tunnel Gully Reserve Plan of Management. The report incorrectly states: "This action is noted as completed with minimal sedimentation, rubbish and weed infestation noted". This statement reflects the "Evaluation" provided in the Plan of Management, which is a performance indicator rather than a statement of current status. This work has not been completed by the Council.

However, the sealing of the overflow car parking is not a determinative issue in relation to a proposal to seal three (3) existing grass netball courts. As a planning merit consideration, the replacement of 3 grass courts with 3 sealed courts does not generate a requirement for the provision of additional parking.

This error does not change the recommendations contained within the Business Paper
