**By Councillor McLaren:**

That a report come to the Council on possible options for assisting the Blue Mountains Musical Society with costume storage.

**Background**

The Blue Mountains Musical Society (BMMS) has a significant costume collection which has increased in size over a number of years. Many of the costumes are original period dress, which are irreplaceable. The current costume storage facility is inadequate and is resulting in deterioration of materials. There is also a significant risk that costumes could be destroyed by water damage. BMMS is seeking the Council's assistance to locate an alternative premises or alternative options for their costume storage.
