

# Bushfire Recovery Guide

*Supporting our community to recover*

**13 August 2020**

# Foreword

This *Bush Fire Recovery Guide* has been developed in conjunction with the NSW Office of Emergency Management and Hawkesbury City Council, to provide information that can assist our community through the recovery process.

Council is committed to supporting our community and residents who have been impacted by recent bush fires, and to make the recovery journey as easy as possible. No recovery is perfect, but we will not stop trying to do our best for our community.

The information in this guide, that includes important recovery information from Blue Mountains City Council as well as useful links and recovery details from State and Federal Government agencies, will be updated regularly. We will ensure we are providing the most accurate and up to date information possible.

The fires have been hard for our community, and we learnt from the 2013 bush fires that the recovery process will be long, but I know we will come through this. We will do it by working together and leaning on each other.

## Safety and site access

Issue	Information	Where to get help
<b>Accessing your property</b>	<p><b>Please do not enter your property until a property impact assessment has been completed.</b></p> <p>NSW Rural Fire Service, Fire and Rescue NSW, Public Works Advisory and the Environment Protection Authority (EPA) conduct assessments of the fire impacted properties to identify hazards so you can take the proper action to protect yourself. Houses, sheds and other buildings damaged in a bushfire can leave potential health and safety hazards in the remaining debris and ash.</p> <p>Entering your property before you have approval can be very dangerous as a range of safety risks may be present, including:</p> <ul style="list-style-type: none"> <li>• Live power lines or active solar panels.</li> <li>• Buildings and other structures may be unstable to enter or walk over.</li> <li>• Sewerage and septic systems may be disrupted causing health risks.</li> <li>• Hot, smouldering coals and other potentially hazardous materials may be hidden under the rubble.</li> </ul>	<p>Service NSW – to register for the bushfire recovery clean-up program call 13 77 88 or go to <a href="http://www.service.nsw.gov.au">www.service.nsw.gov.au</a>. Service NSW also has other useful information.</p> <p>If you are uninsured or your claim does not cover make safe works contact the <b>Public Works Advisory</b> on <b>1800 885 539</b>.</p>

	<ul style="list-style-type: none"> <li>Asbestos dust and fibres have the potential to present a health risk during and after a fire if not properly managed.</li> </ul>	
<b>Insured properties</b>	Clean-up can only start once you have clearance from your insurer. Once the site is made safe, we advise you to take photos or video of the damage to your property and possessions as evidence to support your claim, before you begin the clean-up.	<p>Contact your insurer in the first instance.</p> <p>Questions, complaints or concerns about insurance, contact <b>The Insurance Council of Australia</b> on <b>1800 734 621</b>.</p> <p>Free legal advice and minor assistance to people affected by disasters, including insurance help, contact <b>Legal Aid NSW</b> on <b>1800 801 529</b>.</p>
<b>Uninsured properties</b>	<p>The Public Works Advisory will arrange the clean-up, undertake demolition and removal of building waste for uninsured properties.</p> <p>The NSW Government is offering a Disaster Relief Grant for if you are <b>not insured and have limited income</b>. Grants are available for eligible individuals and families whose homes and essential household contents have been damaged or destroyed by a natural disaster.</p> <p>To be eligible for this assistance you must:</p> <ul style="list-style-type: none"> <li>Be a low income earner and meet an income assets test</li> <li>Demonstrate that the affected home is your principal place of residence</li> <li>Not be covered by insurance</li> <li>Demonstrate that the damage was caused by the disaster</li> <li>Lodge the application within four months of the disaster occurring.</li> </ul>	<p>Contact the <b>Public Works Advisory</b> on <b>1800 885 539</b>.</p> <p>For more information about the Disaster Relief Grant, contact the <b>Disaster Welfare Assistance Line</b> on <b>1800 018 444</b>.</p>

<p><b>Government clean-up funding for all</b></p>	<p>The NSW Government is providing funding to help cover the cost of clean-up for <b>both insured and uninsured properties</b>.</p> <p>This will ensure hazardous materials, including asbestos, are removed and handled in the correct and safe way, and your insurance money is maximised towards rebuilding your home.</p>	<p>To find out more, contact the <b>Disaster Welfare Assistance Line</b> on <b>1800 018 444</b> or visit: <a href="http://service.nsw.gov.au/assistance-bushfire-affected-communities">service.nsw.gov.au/assistance-bushfire-affected-communities</a></p>

## The clean-up

Issue	Information	Where to get help
<p><b>Government provided clean-up</b></p>	<p>Everyone (insured or uninsured) whose property has been impacted by the bush fires will be able to access clean-up assistance. You need to be registered with Service NSW to access this support.</p> <p>Laing O'Rourke (LOR) have been appointed the contractor for the clean-up work. They will work with Public Works and local suppliers and subcontractors to clear properties.</p> <p>Clean-up may include:</p> <ul style="list-style-type: none"> <li>• Containment and removal of asbestos and other hazardous waste</li> <li>• Removal of all dangerous debris including: <ul style="list-style-type: none"> <li>○ Destroyed material</li> <li>○ Hazardous trees</li> <li>○ Removal of concrete slab foundations (with the consent of building owners)</li> </ul> </li> </ul> <p>Once you're registered with Service NSW, there are five key steps:</p> <ol style="list-style-type: none"> <li>1. LOR staff will contact you to discuss the damage and assess your eligibility.</li> <li>2. Once the area is declared safe Laing O'Rourke will meet with you on site.</li> </ol> <p>Note: if you are seeking an asbestos</p>	<p>Contact <b>Service NSW</b> on <b>13 77 88</b> to register and give consent for them to access the land.</p> <p><b>NSW Bushfire Clean-up Info Hub:</b> <a href="https://cleanup.lnbr.com.au/">https://cleanup.lnbr.com.au/</a> Provides up to date information about:</p> <ul style="list-style-type: none"> <li>• where clean-up work is taking place</li> <li>• locations of Community Information Sessions where you can talk to someone in person</li> </ul> <p>Contact <b>Laing O'Rourke</b> on <b>1800 007 539</b> or email <a href="mailto:nswbushfirecleanup@laingorourke.com.au">nswbushfirecleanup@laingorourke.com.au</a></p>

	<p>certificate for your property, email <a href="mailto:nswbushfirecleanup@laingorourke.com.au">nswbushfirecleanup@laingorourke.com.au</a>.</p> <p>If the report has been completed and is available they will email it to you</p> <ol style="list-style-type: none"> <li>3. You approve the scope of works.</li> <li>4. The clean-up of the property will commence.</li> <li>5. You confirm the completion of the agreed scope of works.</li> </ol> <p><b>LOR will always arrange a household visit in advance and will not turn up unannounced or demand payment.</b></p> <p>This will ensure hazardous materials, including asbestos, are removed and handled in the correct and safe way, and your insurance money is maximised towards rebuilding your home.</p>	
<p><b>Demolition and clearing land</b></p>	<p>Removing rubble does not require Council's consent, but demolishing partial structures or heritage items might. Please contact Council to find out what approvals you may need.</p> <p>Structures over 4 metres in height do require demolition by a licensed contractor.</p> <p>When cleaning up your property, make sure you:</p> <ul style="list-style-type: none"> <li>• moisten ash with water to minimise dust and keep it damp, but do not use high pressure water sprays.</li> <li>• don't spread ash around your property, particularly if asbestos materials were used in your home or other structures, or CCA-treated timber was burnt.</li> <li>• don't bury building rubble as it may contain hazardous materials.</li> </ul>	<p>If you have a partial structure or heritage item, please contact <b>Council</b> on <b>4780 5000</b></p>

<p><b>Asbestos</b></p>	<p>Any structure built before 1987 is likely to have Asbestos Containing Materials (ACM). If in doubt, it's safest to assume asbestos is present unless you have confirmation in an Asbestos Assessment Report.</p> <p>You must have an appropriately licensed contractor remove asbestos materials. A list of licensed asbestos removalists can be found on the SafeWork NSW website.</p> <p>Talk to your insurance company to see if asbestos remediation is covered by your policy, and whether they organise demolition and or removal. If so, request a copy of the site clearance certificate. If not, you will need to engage a qualified specialist who is licensed to remove asbestos.</p> <p>If asbestos is present, after the clean-up works you will need an Asbestos Assessment Report or an <b>Asbestos Clearance Report</b>. This document is required before you can rebuild.</p>	<p>Find a licensed contractor on the SafeWork NSW website: <a href="http://safework.nsw.gov.au/asbestos-and-demolition-licence-holders">safework.nsw.gov.au/asbestos-and-demolition-licence-holders</a></p>
<p><b>Fire retardant</b></p>	<p>The NSW Rural Fire Service (RFS) drops coloured fire suppressant retardants and gels from aircraft during firefighting operations to help slow the spread of a fire. These retardants are not hazardous. But there are some precautions that you need to take. Rainwater tanks may also have fire retardant in them. Find out more on page 24.</p>	<p>For more information about what to do if these suppressants have been used on your property, please read the fact sheet: <a href="http://emergency.nsw.gov.au/Documents/factsheets/using-fire-retardants.pdf">emergency.nsw.gov.au/Documents/factsheets/using-fire-retardants.pdf</a></p>
<p><b>Trees and vegetation</b></p>	<p>Trees and vegetation are protected under legislation and planning policies.</p> <p>In an emergency you can remove trees if it is necessary to protect human life and property from imminent danger from a bush fire burning in the vicinity. Where possible, you should keep evidence that demonstrates why the tree removal was necessary, such as photographs or video footage, or</p>	<p>Contact <b>Council</b> on <b>4780 5000</b> or at <a href="mailto:council@bmcc.nsw.gov.au">council@bmcc.nsw.gov.au</a></p> <p>Contact the <b>RFS</b> at: <a href="http://rfs.nsw.gov.au/about-us/contact-us">rfs.nsw.gov.au/about-us/contact-us</a></p>

	<p>a written opinion from an arborist before removing the tree.</p> <p>If you feel that trees on your neighbour's property pose a bush fire risk to your property, you can contact the RFS and request they make an assessment of the neighbour's property and if necessary, issue a bushfire hazard reduction notice to that property owner.</p>	
<b>10/50 vegetation clearing</b>	<p>The 10/50 Vegetation Clearing Scheme gives people living near the bush an additional way of being better prepared for bush fires. The scheme allows people in a designated area to:</p> <ul style="list-style-type: none"> <li>• Clear trees on their property within 10 metres of a home, without seeking approval; and</li> <li>• Clear underlying vegetation such as shrubs (but not trees) on their property within 50 metres of a home, without seeking approval.</li> </ul>	<p>Check if your property is in a 10/50 Vegetation Area: <a href="https://rfs.nsw.gov.au/plan-and-prepare/1050-vegetation-clearing/tool">rfs.nsw.gov.au/plan-and-prepare/1050-vegetation-clearing/tool</a></p> <p>The 10/50 scheme is supported by the 10/50 Vegetation Clearing Code of Practice: <a href="https://rfs.nsw.gov.au/data/assets/pdf_file/0003/18453/1050-Vegetation-Clearing-Code-of-Practice.pdf">rfs.nsw.gov.au/data/assets/pdf_file/0003/18453/1050-Vegetation-Clearing-Code-of-Practice.pdf</a></p>
<b>Assistance with removal of trees on private property</b>	<p><b>If your land is insured</b></p> <p>Contact your insurance company to confirm if you are covered and discuss the next steps to deal with your situation.</p>	<p>Contact your insurance company directly.</p> <p>If you have any questions, complaints or concerns about insurance, contact the <b>Insurance Council of Australia</b> on <b>1800 734 621</b>.</p>
	<p>If your land is <b>under insured or not insured</b>, the NSW Public Works Advisory can help you.</p>	<p>NSW Bushfire Clean-up Info Hub at <a href="https://cleanup.lnbr.com.au/">https://cleanup.lnbr.com.au/</a> Laing O'Rourke <b>1800 007 539</b> Email: <a href="mailto:nswbushfirecleanup@laingorourke.com.au">nswbushfirecleanup@laingorourke.com.au</a></p>

## Disposing of waste and debris

Issue	Information	Where to get help
<p><b>Waste disposal at Blue Mountains Waste Management Facilities</b></p>	<p>Due to COVID-19, Blue Mountains Waste Management Facilities (WMF) are currently operating in a reduced capacity.</p> <p>Blaxland WMF is open 8am – 4:45pm, 7 day/ week.</p> <p>Katoomba WMFs are open to residents and businesses between 8am and 4:45pm Thursday, Friday and Saturday each week.</p> <p>Blaxland is open Monday – Saturday for registered businesses and BM generated waste. Contractors must provide a Blue Mountains address where the waste has been generated. Contractors may be registered with BMCC or out of area.</p>	<p>Please contact <b>Council</b> on <b>4780 5000</b></p>
<p><b>Waste disposal declaration form</b></p>	<p><b>You must present a completed ‘Waste Disposal Declaration form’ when you arrive at any facility, with your waste.</b> If you don’t, the facility may not accept your waste or you may be charged full fees, in addition to the Waste and Environment Levy.</p> <p>Waste generated as a result of a bush fire needs to go to a lawful facility, no matter who is transporting it, to ensure soil, water and human health is protected. A list of where to take your waste is below. You must keep proof of the ‘lawful disposal’ – that means you need the receipt or a copy of the receipt. If a contractor is used, you’ll need to request that they provide you with a copy.</p>	<p>A copy of the Waste Disposal Declaration form is available online: <a href="http://bmcc.nsw.gov.au/recovery">bmcc.nsw.gov.au/recovery</a></p>
<p><b>Types of waste after a bush fire</b></p>	<p>Waste resulting from a fire is called fire damaged debris. There are 4 types of fire damaged debris:</p> <ul style="list-style-type: none"> <li>• <b>Minor site clean-up waste (uncontaminated property)</b> Fire damaged debris where significant structural damage <b>has not occurred</b> to the residence on a property, but there is damage to other things on the property like trees, plants, landscaping, fences, sheds, vehicles, etc. Minor site clean-up can</li> </ul>	

	<p>be typically undertaken without the need for specialist equipment or personnel and the resulting quantities of waste can usually be transported by ute, trailer, small truck or skip bin. Minor site clean-up waste is from sites confirmed <b>not</b> to contain ACM.</p> <ul style="list-style-type: none"> <li>• <b>Bulk uncontaminated waste</b> Fire damaged debris (that is not contaminated with ACM) where significant structural damage <b>has occurred</b> to the residence on a property that requires partial or total demolition of the structure. Bulk uncontaminated waste also includes any additional uncontaminated items damaged by fire on the property (e.g. trees, plants, landscaping, fences, sheds, vehicles, etc.).</li> <li>• <b>ACM contaminated waste</b> Fire damaged debris that has been identified by visual assessment only as potentially contaminated with ACM. Fire damaged debris identified as being potentially contaminated with ACM is deemed to be contaminated with ACM, unless confirmed otherwise by an occupational hygienist or, in the case of friable asbestos, a licensed asbestos assessor. This means that there is no need for forensic testing to confirm the presence of asbestos in situations where there is a high likelihood that the fire damaged debris is indeed contaminated with ACM.</li> <li>• <b>Non-ACM hazardous waste</b> Any other hazardous items that may be present in fire damaged debris such as unvented gas bottles, pesticides, petrol, oils, lead acid batteries, pool chemicals, paint, unidentifiable chemicals etc. Non-ACM contaminated waste will almost always be discrete items as opposed to bulk quantities of waste.</li> </ul>		
<p><b>Transporting and delivering waste</b></p>	<p>All wastes from fire damage debris must be transported lawfully.
