

# Resource Recovery & Waste Management Facilities (RRWMF) Fees and Charges 2019/2020

**Open 7 days a week, 8am - 4.45pm**

Council uses weighbridges at the Katoomba and Blaxland Resource Recovery and Waste Management Facilities (RRWMF) for the calculation of fees & charges. All fees & charges are based on **the WEIGHT of the waste** being discarded.

Council has resolved **not to accept waste generated from outside the city**. Substantial proof (Source of Waste Form, bill/invoice/rate notice, drivers licence, development approval etc) is required.

Where a person using the RRWMF is required to reweigh, a deposit will be payable on entry to the RRWMF and the vehicle will be weighed on entry and exit. The relevant fee will be deducted from the deposit and the remainder refunded to the user. The fee required may exceed the deposit and an extra charge above the deposit may be required.

**All charges include provision for the NSW Government's Waste & Environment Levy (\$82.70 per tonne) and GST, as applicable.**

## MIXED WASTE

includes soil/organic waste	\$377*	per tonne
-----------------------------	--------	-----------

## REUSABLE RESOURCES SEPARATED & SORTED

Separated timber (treated or untreated)	\$213*	per tonne
