

# Rehabilitation of Blue Mountains Swamps

Rehabilitation of Blue Mountains Swamps involves an integrated program of works. The essential elements of this program are:

- ⇒ Improvement to existing stormwater devices
- ⇒ Sediment controls
- ⇒ Soft engineering within swamps
- ⇒ Weed control
- ⇒ Education and volunteer program- Swampcare and Swampwatch
- ⇒ Track closures

**Please stay out of the swamp and keep to the walking track**

**WHY?**

- This area is a rare Upland Swamp.
- Swamp vegetation is very sensitive to disturbance.
- It supports Endangered Species found nowhere else including the Giant Dragonfly and Blue Mountains Water Skink.
