

## Staff Translating Service

Blue Mountains City Council has a number of staff who speak two or more languages. These staff members have volunteered to translate non-confidential matters and enquiries. Staff at the front counter have a list of these staff members and can contact them for you. Please let us know in advance so we can make sure the staff member is available.

For any confidential or detailed matters Council's front counter staff will arrange translation through the National Translating and Interpreter Service.
