<td>Detailed design and construction of Stage 1 of Hat Hill Road Residential Development</td>
</tr>
</tbody>
</table>

The general scope of detailed design and construction includes the following:

1. Design and construction of roads, pavements and roll top kerb and gutter to BMCC Standards and including road furniture and signage.
2. Excavation and site clearing as required.
3. All other disturbed and excavated areas are to be spray mulched at completion of works.
4. Footpath area to be turfed between boundary and back of kerb.
5. Stormwater design and construction including onsite stormwater detention.
6. Sewer drainage design and construction.
7. Water supply design and construction and service to the boundary.
8. Natural Gas Supply infrastructure design and construction.
9. Design and construction of electricity supply infrastructure to also include any Level 2 or 3 substation/reticulation and including street lighting design and construction.
11. Street lighting in accordance with regulations of the Endeavour Energy and residential area.
12. Removal of all surplus excavated material from site.
13. Reparation and submission of Part V Environmental Assessment.
